DEVELOPING YOUR RESEARCH TOPIC

This exercise is designed to help you develop a thoughtful topic for your research assignment. Answer the following questions to help you better understand and refine your thinking about your research topic.

A  What is the topic you would like to research?

Don’t have a topic? Browse the following online library resources for inspiration: CQ Researcher, Opposing Viewpoints, or ProQuest News & Newspapers. Find more info @ the workshop guide: [http://researchguides.library.vanderbilt.edu/researchproductivity/perfecttopic](http://researchguides.library.vanderbilt.edu/researchproductivity/perfecttopic)

B  Why are you interested in this topic?

C  Think about these elements of your topic:

<table>
<thead>
<tr>
<th>WHO</th>
<th>WHAT</th>
<th>WHERE</th>
<th>HOW</th>
</tr>
</thead>
<tbody>
<tr>
<td>Who is involved? Whom does it affect? Is there a specific population you want to focus on? Who are the primary stakeholders?</td>
<td>What is the problem or issue?</td>
<td>Where did it begin? Is there a geographic location you want to focus on? Where does it fall on the moral spectrum (Good/Bad/Just)?</td>
<td>How does one aspect of your topic affect another? How serious is the issue/problem?</td>
</tr>
</tbody>
</table>
Search Google, Wikipedia, and the online library resources Gale Virtual Reference Library, Credo Reference, Oxford Reference, or Sage Knowledge to find basic background information about your topic and answer the questions below. Concept mapping, or mind mapping, is a great way to plan your research. Use Popplet or MindMeister to brainstorm keywords, and to keep track of the databases you've tried or want to search. Most online tools allow maps to be saved or emailed. Links on the workshop guide: http://researchguides.library.vanderbilt.edu/researchproductivity/perfecttopic
