THE GOLDEN DAYS OF INDIAN SUMMER RING WITH CO-ED FROLIC.

Last week a party of young ladies of the Kappa Alpha Theta fraternity and a number of young men of Vanderbilt enjoyed the annual nutting expedition given by Miss Stella Vaughn. All the arrangements were carried out with Elgin precision and from the time the campaign against the unoffending nuts was launched until the party returned with their captive victims, who are destined to furnish enjoyment during the chilly winter months, everyone had the time of their young lives.

After all had enjoyed themselves sufficiently for one time the party divided into twos and threes, regardless of the well-established fact that three is a crowd, started on a scouting expedition for the nuts.
