How to find Articles/Journals in the Eskind Library

The following instructions and screen shots are done when off campus so you can see how remote access will look. If you have any questions or encounter any problems, please contact me.

Rachel Lane Walden rachel.l.walden@vanderbilt.edu (615) 936-3459

You will want to start on the Eskind Library Homepage: http://library.vanderbilt.edu/biomedical/
I would recommend bookmarking this page.

To find articles when you have the title. Go to the Advanced Search Screen
How to find Articles/Journals in the Eskind Library

Search for articles using the title, the results will show up below the search fields.

1. Change dropdown to Title
2. Choose Articles
3. Type or copy text into field
4. Results will show at the bottom, use Online link to get access.

How to find Articles/Journals in the Eskiind Library

If you can’t find the article the above way check to make sure we have access to that journal. This also will be how you can browse the articles in a journal.

If you are looking to browse a journal or to check if we have access to it, you will want to choose the Journals link right below the main search bar on the homepage.

From here you can search by title, keyword, or ISSN.

It will bring you to a list with that journal only or that journal and the ones with a similar title, if any.
